

## 5. Building an agile, responsive and efficient university operation

• The University of Applied Sciences (UAS) is a public institution of higher education that provides vocational and professional education. It is characterized by its focus on practical skills and its close relationship with the labor market.

• The UAS is currently facing several challenges, including the need to modernize its infrastructure, improve its teaching methods, and enhance its research capabilities.

• The UAS is also facing a significant increase in the number of students, which is putting pressure on its resources and facilities.

• The UAS is currently in the process of developing a new strategic plan, which will focus on the following areas:

### 5.1P. The UAS is currently facing several challenges, including the need to modernize its infrastructure, improve its teaching methods, and enhance its research capabilities.

• The UAS is currently facing several challenges, including the need to modernize its infrastructure, improve its teaching methods, and enhance its research capabilities.

Q2

• The UAS is currently facing several challenges, including the need to modernize its infrastructure, improve its teaching methods, and enhance its research capabilities.

• The UAS is also facing a significant increase in the number of students, which is putting pressure on its resources and facilities.

• The UAS is currently in the process of developing a new strategic plan, which will focus on the following areas:

A. The UAS is currently facing several challenges, including the need to modernize its infrastructure, improve its teaching methods, and enhance its research capabilities.

• The UAS is also facing a significant increase in the number of students, which is putting pressure on its resources and facilities.

• The UAS is currently in the process of developing a new strategic plan, which will focus on the following areas:

UAS is currently facing several challenges, including the need to modernize its infrastructure, improve its teaching methods, and enhance its research capabilities. 5.1	
1.1 The UAS is currently facing several challenges, including the need to modernize its infrastructure, improve its teaching methods, and enhance its research capabilities.	pg 17
1.3 B. The UAS is currently facing several challenges, including the need to modernize its infrastructure, improve its teaching methods, and enhance its research capabilities.	pg 18
