Financial information

As per the financial statements, the University recorded a consolidated surplus of \$127.8m for 2019. This compares to a consolidated surplus of \$72.7m in 2018.

In preparing the financial statements, the UQ Chief Financial Officer has fulfilled the reporting responsibilities as required by the *Financial Accountability Act 2009*. He has provided the accountable officer with a statement that the financial internal controls of the University were operating efficiently, effectively and economically in accordance with section 57 of the *Financial and Performance Management Standard 2019*.

The Warwick Solar Farm will save the University millions of dollars in power costs. Pictured here are workers installing panels on the trackers, which track east to west with intelligent controls to adjust each row individually, rather than all moving as one group. This ensures the best alignment with the sun and better output during all conditions.
